FIRST ANNUAL REPORT

OF THE

COUNTY SUPERINTENDENT OF SCHOOLS.

To the Board of Commissioners of Cook County,

Gentlemen:—I herewith submit a report of the condition of the schools of the county, together with a tabulated statement of the receipts and expenditures of each township.

Two years ago I made the following statements in my report to the State Superintendent regarding the schools of Cook county: "I have met these obstacles in arranging and planning for the improvement of the schools of the 1st, Multitude of school officers. 2d, Small districts unable to sustain good schools. 3d, Miserable custom of employing 'summer' and 'winter' teachers. I believe that the 'township system' would remove all these obstacles to the advancement and growth of our public school interests." The custom of employing 'winter' and 'summer' teachers has been almost entirely broken up. The idea has prevailed heretofore that a man must be employed during the winter, who would be able to whip the large boys into subjection, if necessary; but experience has taught the people that the constant changing of teachers has resulted in the complete demoralization of many good schools; and that the employment by the year of a thoughtful lady teacher, who has fitted herself for her work, has produced the most gratifying results. A large per cent. of the teachers is now employed by the year.

There are one hundred and ninety-five school districts in the county. There are three directors for each district, or five hundred and eighty-five directors in the county. There are thirty-two whole and fractional townships, each having three trustees and one treasurer, or one hundred and twenty-eight township officers, making, altogether, seven hundred and thirteen school officers in the county.

I believe that the school interests of the county would be advanced by adopting the township organization of schools, making each township a school district. The town of Barrington (take as an illustration,) has thirty-seven school officers, while all other affairs are managed by six town officers. I firmly believe that the schools of each township would be more successfully and judiciously managed by a Board of Education of six members.

The new school law, which went into effect on July 1st, 1872, made some important changes. Hereafter school moneys will be distributed to counties, towns and districts in proportion to the number of persons under twenty-one years of age. This plan of apportionment is just and equitable, except in the division of the public funds in districts, where funds ought to be divided, one-half on the attendance as certified on the schedules, and one-half according to the number of children in the district. This would encourage and assist school districts to continue school more than the five months actually demanded by law.

The new school law provides for the establishment and maintenance of township high schools. The town of Jefferson organized a high school two years ago, and it has been so successful that the people feel that the advance on their property, in consequence of this school, has more than paid all the expense of the school. Hyde Park and

Lake have also established high schools. I most earnestly urge all township trustees to establish such a school where-ever it is practicable. One-half of the time of the teacher is given to a few advanced scholars in a district school; remove these to a township high school and the advanced pupils would receive better instruction, and the younger children in the district schools would receive double the attention they now do.

The new law makes it the imperative duty of directors to adopt some system of text-books, and insist upon uniformity. It still further provides that text-books shall not be changed oftener than once in four years.

It has frequently happened that text-books have been changed at the request of teachers or agents when there was really no necessity of a change. Directors should be very guarded in the changes they make in text-books, and try and secure the best.

The destruction of the assessment books, in the great fire, very greatly embarrassed the schools of the county during the year. The directors decided that they would continue the schools, and in accordance with a provision of the state law, issued district orders bearing ten per cent. interest to pay current expenses. Most of these orders have already been paid from the taxes of 1871.

INSTITUTES.

Two institutes have been held during the year. The first was in session at Oak Park, May 1st, 2d and 3d, 1872. There were one hundred and fifteen teachers present. Practical exercises in the methods of teaching various branches were presented by some of the teachers. The papers presented on "True Discipline," "The Model Teacher," "Language Lessons," and "Necessity of Preparation for the Teacher's Work," awakened a deep interest. The question of grading the village schools of the county was thoroughly discussed, and it seemed to be the unanimous sentiment of the teachers that greater efficiency could be secured, a deeper interest on the part of the pupils awakened, and better results accomplished by the introduction of a graded course of study.

Upon the passage of the new school law, I asked the Board of Commissioners of Cook County to make an appropriation of \$400 to defray the expenses of an institute which would enable the teachers of the county to prepare themselves upon the natural sciences. The Board generously made the appropriation, and the institute commenced July 22d and closed August 16th, 1872. There were one hundred and sixteen names enrolled. Prof. O. Marcy, of the Northwestern University at Evanston, gave instruction in botany and zoölogy; B. L. Dodge, of Palatine, taught physiology and philosophy, and D. S. Wentworth, of the Cook County Normal School, conducted an exercise each day on the methods of teaching.

At the close of the institute the teachers were required to pass a written examination on botany, zoölogy, physiology and philosophy. Ninety-two of the teachers passed a satisfactory examination, and received certificates under the new school law.

The value of these institutes to the schools of the county is manifested in the greater earnestness and efficiency of teachers, and in the better methods of instruction used. Teachers who do not attend institutes will soon find themselves crowded out of the schools by those who can do better work.

THE COOK COUNTY NORMAL SCHOOL.

The success of the Cook County Normal School has exceeded the expectations of its most sanguine friends. In a few years Cook county will be enabled to supply her public schools with efficient and trained teachers. Graduates of the school have been so successful in their work that the demand has been greater than the supply, and ladies have readily found employment at salaries varying from forty-five to sixty-five dollars per month, and gentlemen from sixty-five to ninety dollars per month. Four classes have graduated. The number of different pupils who have belonged to the school since its organization is three hundred and sixteen; of these eighty-six have completed the prescribed course of study and received diplomas.

The number enrolled for the year ending July 1st, 1872, was one hundred and forty-seven, of whom only twenty-six were gentlemen. For some reason there are only a few young men that fit themselves for the work of teaching. Other kinds of business offer such inducements that young men can learn a business and at the same time can earn enough to pay their expenses, consequently only a few prepare themselves for the profession of teaching.

A very large number of those who have attended the Normal School were partly or wholly dependent upon their own resources.

The greatest need of the school, at the present time, is suitable and sufficient boarding accommodation for the pupils. If a commodious boarding house could be erected, a portion of the twenty acres belonging to the county could be sold for enough to pay for such a building.

CONDITIONS OF ADMISSION.

Those who desire to enter the Normal Department should make application to the Principal, at Englewood, and are required:

- 1st. To be, if males, not less than sixteen, and if females, not less than fifteen years of age.
- 2d. To produce satisfactory evidence of good moral character.
- 3d. To pass an examination that will show a fair proficiency in the subjects of Reading, Orthography, Abbreviations, Grammar (including Etymology and Syntax), Geography (so much of descriptive, local, political and mathematical as is usually learned in a well taught Grammar school). Arithmetic, including simple and compound numbers, properties of numbers, least common multiple, greatest common divisor, fractions, both common and decimal, and the subjects usually included under the term Percentage.
- 4th. To sign a declaration, that it is their intention to teach in the public schools, and give Cook County the preference in all offers to secure their services as teachers.
- 5th. Pupils will be admitted to the Preparatory Department, without examination, by signing a declaration that it is their intention to enter the Normal as soon as qualified.

At the close of each term there will be a thorough examation of the Preparatory Class for promotion to the Normal Department, and all who have, when the class records are averaged with examinations, acquired a proper percentage, may, by the recommendation of the Principal and the approval of the President and Secretary of the Board of Education, be so promoted.

Pupils may be admitted to partial course in either department.

EXPENSE.

Tuition to residents of Cook County free; for non-residents, is at the rate of Thirty Dollars per year.

Board can be obtained in good families at from three and one-half to five dollars per week. The expenses of board can be reduced about one-half by boarding in clubs, or self-boarding. Rooms can be had at reasonable rates.

There is a BOARDING-HOUSE connected with the school, conducted on the club plan. Everything furnished at cost. Good board at about \$2.40 per week. Rent of room from twenty-five to fifty cents per week. Washing at fifty cents per dozen. Light and fuel about fifty cents in winter. Laundry furnished free.

The culinary department of the boarding-house is furnished complete; the lodging-rooms only in part. Each boarder is expected to supply himself with bedding, carpets, towels and napkins.

TRAINING DEPARTMENT.

The following circular issued by D. S. Wentworth, Principal of the County Normal School, will explain the work of this department:

CIRCULAR.

"The Training Department was established in order that there might be a school exhibiting the best methods of teaching, discipline, and classification. It includes the Primary and Intermediate grades. The Normal students are required, in accordance with a resolution of the Board of Education, to practice in this department from five to twenty days each year of their attendance at the school, under the supervision of critic teachers. There they have an opportunity to put in practice the principles and methods which they have previously learned by observation and special instruction; also, to manifest such degree of ability to teach as they may possess. Before being allowed to teach, they are required to present a paper, after observing two days, with reasons written in full, for every exercise required of the children.

If the pupil in training has acquired but a superficial idea of the work to be accomplished in teaching, it will be manifest in his work during the week of practice. In such case, his errors are pointed out to him, and he is required to go over the same ground again, at some future time.

If, on the other hand, the pupil, in teaching, manifests an appreciation of his previous instruction in principles and methods, and an ability to make practical use of them, he is not required to teach again in the same grade.

Criticisms, both favorable and unfavorable (by the critic teacher), are daily recorded in the criticism books, for the benefit of the pupil teacher, and subject to the inspection of any person interested.

Each pupil, before taking charge of a class, is required to spend two days in observing the work of the previous teacher, taking full notes of the work done in the room, familiarizing himself as much as possible with pupils, names and characteristics, and reviewing the "Criticism Book," in order to profit as much as possible by the criticisms of his predecessors. We are thus enabled to continue the same kind of work, in the same manner, from week to week.

It will be observed from the course of study, that no pupil is expected to enter the school of practice until the second term. During the first and second terms, they receive special instruction in methods of teaching and mental development, and in their practice they are expected to exhibit the benefits derived from it. This department of our school receives *special attention*, and we confidently believe that the district schools will be greatly benefited by it, beyond the ordinary academic teaching."

EXAMINATION OF GRADED SCHOOLS

In February last the principals of the various village schools were invited to meet at the office to advise with each other in regard to the propriety of holding a written examination of certain classes in each school. A comparison of schools, and the work required of pupils in each showed a want of uniformity, and in many cases the entire absence of system or course of study. The Superintendent was requested by nearly a unanimous vote of the principals to give the advanced classes in the schools a written examination. In March the following circular was sent to the principals:

EXAMINATION OF CLASSES

IN THE

GRADED SCHOOLS OF COOK COUNTY, ILLINOIS.

Thursday, March 21st, 1872.

DIRECTIONS.

The "First Class Questions" will be used with all classes that have completed the various branches as follows, viz.:

ARITHMETIC-To Square Root.

Grammar—Analysis and parsing with definition of terms.

Geography—Common School Geography completed.

History-Discoveries and Settlements.

Spelling and Penmanship.

The "Second Class Questions" will be used with all classes that have completed the various branches as follows, viz.:

ARITHMETIC—To Compound Numbers.

Grammar—Orthography and Etymology, and simple exercises in the use of language. Geography—United States completed, definitions of terms, and questions upon the general description of the earth.

Spelling and Penmanship.

Teachers are requested to give such previous instruction to their pupils, in reference to the heading of their papers on the day of the examination, that they will understand how to proceed immediately upon the distribution of the questions. Each paper will be required to be headed with the name of the pupil and age, name of village, and name of teacher. Use foolscap paper, and leave a margin at the left of each page, writing on both sides of each half sheet.

Let the scholars be seated separately, and if it is necessary to seat two pupils at the same desk, they should be of different classes. All maps must be removed from the blackboards and walls of the room. The teachers will collect the papers without any delay, at the close of the time specified for each exercise, whether scholars have finished or not. The papers of each study should be kept separate, and those of each class should be kept by themselves. The papers should not be folded. If scholars are seen to communicate, write "communicated" at the head of their papers. The questions will be so arranged, that there will be no necessity of scholars making inquiries about the questions.

It is essential to the success of this examination, that the constant and undivided attention of the teachers should be given to the exercises. At the close of the examination the teachers will please forward the papers without any delay, to "A. G. Lane, County Superintendent of Schools, 138 W. Monroe Street, Chicago."

I would suggest that the "School Directors" be requested to take charge of the examination.

Very truly yours,

A. G. LANE,

Superintendent of Schools, Cook County.

On the day preceding the examination, packages of printed questions, sealed, were sent to the principals with instructions that they should not be opened until the time named for the exercise. At the close of the examination the papers were sent to me and were marked by the members of the senior class of the County Normal School, under my supervision. The examination has awakened a deep interest in all the schools of the county and much good has

been accomplished thereby. Some time in March next another examination will take place. The following questions were submitted at the examination:

Only one class examined,

GRADED COURSE.

After a close observation of the schools for two years, I became convinced that the schools could be made more efficient by the adoption of some course of study. The subject was submitted to the teachers at the institute held at Oak Park, in May. A committee consisting of D. S. Wentworth, W. Wilkie, B. L. Dodge, Chas. Raymond and the Superintendent was appointed to prepare a course of study for the village schools, which you will find subjoined. In presenting this course of study it is not to be expected that all the schools can be immediately organized in conformity to the grades herein named. This work is, in a measure, an experiment. The earnest, hearty co-operation of every principal in organizing his school in accordance with the requirements of this course of study, will make it a success. There are doubtless many defects, but after using it one year we shall be able to modify it so as to adapt it to the needs of our schools. The teachers are requested to report during the year any changes that they may deem advisable. No originality is claimed in this work. The Courses of Study of the Chicago, St. Louis and Cook County Normal Schools, have been the sources from which most of this course of study has been made up, and we hereby acknowledge our thanks.

COURSE OF STUDY

FOR THE

GRADED SCHOOLS OF COOK COUNTY.

FIFTH GRADE.

CONCLUSION.

I wish to acknowledge my gratitude to those school trustees, treasurers, directors and teachers who have endeavored so faithfully to perform all their duties, and especially for the kind support and a sistance which they have given to me in the performance of the duties of my office. Let us each remember that the youth committed to our care are to be the men and women who will take our places in life's great struggle. Let us remember that

"Character groweth day by day, and all things aid its unfolding, And the bent unto good or evil may be given in childhood: Scratch the green rind of the sapling or wantonly twist it in the soil, The gnarled and crooked oak shall tell of thee for centuries to come."

Looking to Him who is the source of all wisdom for help and strength, let us cheerfully and thoughtfully begin our work for another year.

Synopsis of the New School Paw.

		Ç.

THE NEW SCHOOL LAW

The following are some of the requirements of the new school law:

COUNTY SUPERINTENDENTS

must divide the state and county funds to township, wholly on the basis of the population under twenty-one. (Sec. 16.)

Shall grant certificates to such persons as may, upon due examination, be found to possess the qualifications prescribed by law, said examination to be conducted by himself and two competent and discreet persons to be appointed by the county board at their first meeting after the election of the county superintendent, if the board deem such appointment expedient. (Sec. 50.)

May remove any director failing to perform his duties under this act, after having given written notice. (Sec. 76.)

May grant provisional certificates to those who do not possess the qualifications for teaching the elements of the natural sciences, physiology, the laws of health, upon request of the directors. (Sec. 50.) Teachers who apply for provisional certificates will be required to meet the *full demand* of the law in the other branches.

TOWNSHIP TRUSTEES.

The annual election of trustees of schools shall be on the second Saturday of April—except those townships whose boundaries coincide with those of the civil towns. (Sec. 25.)

The following townships elect trustees on the second Saturday of April, viz:
